

Radon Environmental Welcomes Michael D. Harris to its Board of Directors

April 14th, 2016

VANCOUVER, BRITISH COLUMBIA – Radon Environmental Management Corporation (REM) is pleased to announce the appointment of **Michael D. Harris to its Board of Directors.**

Mr. Harris currently serves as Senior Business Advisor in the Corporate/Commercial and Government Relations & Ethics Groups at Fasken Martineau. He is an experienced advisor on governance issues and government relations matters and brings extensive experience in public policy and government decision-making, having held the positions of Member of Provincial Parliament and Premier of Ontario (1995-2002).

Michael serves as a Director on several private and public boards, including Chartwell Retirement Residences, Canaccord Genuity, Colliers International Group Inc., and Route1. He also sits on the advisory board of several private equity funds, including EnerTech Capital Partners and Beringer Capital.

His passion for the community is shown through his involvement with various organizations and institutions. He served as a Director of the Tim Horton Children's Foundation. He currently holds the position of Senior Fellow with The Fraser Institute, and serves on the Board of the Manning Centre for Building Democracy. Michael has also served as the Honorary Chairman of fundraising initiatives for Nipissing University, Canadore College and the North Bay Regional Health Centre.

Alan J. Whitehead, President & CEO stated "We couldn't be more honored and delighted to welcome Mr. Harris to our board. Michael's extensive leadership and political experience, as the former Premier of Ontario, will be an invaluable resource to our board, and to myself as CEO, as we develop and implement our business and strategic plans."

About Radon Environmental Management Corporation (REM)

REM is a health and building sciences company, based in Vancouver, BC. Our focus is reducing public exposure to radon gas, which is the leading environmental cause of cancer and has the highest mortality rate of all environmental exposures; radon is also the leading cause of lung cancer after smoking. The Company is a recognized leader in raising radon awareness and education, is the only integrated provider of radon mapping services, together with radon detection devices and measurement services. REM also provides advanced performance radon mitigation solutions and invests in the medical research of radon related cancer and the technical development of new and innovative radon detection and mitigation products.

On behalf of the board of Radon Environmental Management Corp.
